

# **Twelve Reasons Why, the Church must get Ready in the Months Ahead.**

**John Shorey [www.tribulationtruth.com](http://www.tribulationtruth.com)**

**I personally believe the Great Tribulation could start in the coming year of 2016. When I am done explaining the twelve reasons why we must prepare now, I believe you will pray that I am right.**

**I am going to share many coming events that will happen soon, whether or not the Great Tribulation starts in the coming year or seven years from now. If the start of the Great Tribulation is kicked down the road for seven years, I believe that most Americans will die before the Great Tribulation even starts.**

## **1. America will soon see the judgment of God.**

- A. We have made money into our God. God says we must not have any other gods before him; Our God is a jealous God.
- B. We have slaughtered over 60 million babies, even harvesting body parts from near term babies.
- C. Our courts have declared that what God says is evil is good and what is good is wrong.
- D. We are turning our backs on Israel.

## **2. We are now seeing growing numbers of terrorist attacks around the world that will soon be coming to our cities in America.**

- A. When the bombs went off at the Boston Marathon, the city of Boston went into lockdown. All communication was shut down, no internet, and no telephones. Martial Law was declared.

The Jade Helm exercises were done to prepare for the terrorist events that will soon come to America. **Our Government is preparing for what is coming; are you?**

B. If we look at what have been happening in Paris France following the recent terrorist attacks, we will see the model of what is to come to America.

The borders have been shut down. No travel has been allowed in or out of the country. All airlines have been stopped and no airplanes allowed in Frances airspace. In Paris, martial law is declared and no one can even walk the streets to go home.

C. Imagine these steps happening in America. Economic commerce would come to a standstill. We are entering the Christmas season as I write this. Most of America's business happens during the weeks ahead. If this was disrupted, it would cause many businesses to fail.

## **"GOD ISN'T FIXING THIS!!!" (This article was recently sent to me.)**

Let me share with you today some thoughts in no random order about this latest act of terrorism on our soil by Islam.

-The Islamic terrorists who committed this latest massacre in the name of their false religion had turned their home into a bomb factory. The male had traveled in the past year to Saudi Arabia and Pakistan, and brought his wife back from there on a fiancée visa.

-As I have stated many times, Islam is not now, never was, and never will be about peace. It is about domination and turning the world into an Islamic state, purged of all non-Muslims. That has been their stated goal for the entire 1400 years of their existence, and has never changed. ALL practicing Muslims believe this, want this, and are 100% in agreement with jihad and all actions

necessary to make this a reality. DO NOT BUY INTO THE LIES THAT CLAIM ANYTHING DIFFERENT!!!

-These acts of Islamic terror on our soil will not cease, only increase! The FBI has active investigations in all 50 states! It is not a matter of if, only when the next act of Islamic terror takes place. The only answer from a national security standpoint is what I shared years ago. We need to shut down all mosques, and start deporting any Muslims we even suspect have ties to terror. Europe has been decimated and in a few years will be destroyed by the Islamic invasion into their various countries. Islam is at war with us, but they are the only ones actively fighting that war!

-As I have stated many times, we have a pro-Islamic President and administration that along with the full support of the mainstream media, acts as a sympathizer for the false religion of Islam. Even after this act of terror in California, the President stated that ISIS is not a real threat to the United States and refused to call what happened what it is, Islamic terror! He even refuses to admit we are at war with Islam! He will undoubtedly conclude that like the Ft. Hood massacre by Muslim terrorist Army Major Nadal Hassan, that this latest massacre will be “workplace violence.”

-With the full support of his foreign affairs adviser Susan Rice, and domestic affairs adviser Valerie Jarrett who has close ties to the Muslim Brotherhood, the Obama administration has managed to fast track immigration of nearly 1 million Muslims into the country over the past 5 years. The administration has also infiltrated all parts of our Federal Government with Muslims, including the DOJ responsible for the protection of our homeland.

-In the coming days, look for the President begin signing Executive Orders to try and chip away at the 2nd Amendment right to bear arms. -By refusing to take meaningful actions to destroy ISIS, the real legacy of President Obama will be his incompetent and failed foreign policy that has destabilized and created chaos in the Middle East giving rise to ISIS, while at the same time totally ignoring the genocide of Christians throughout the Middle East, wiping out Christian groups who have existed since nearly the beginning of the church 2,000 years ago.

-The complicit media bears much blame and responsibility for these acts of Islamic terror. When they found out the California massacre was committed by Muslims, they quickly went into defense mode to try and protect Islam, unlike last week when they were giddy as the Planned Parenthood shooter turned out to be a white person so they could advance the false narrative he was a

pro-life Christian. It turned out he was neither but they didn't take the time to broadcast that fact.

-Sadly, 50% of our population has NO CLUE what is going on in the world and are horribly uninformed. 40% mildly informed, and the bulk of their information comes from mainstream media sources. So their views are largely shaped by the media's presentation of different issues based on their agenda. This is why so much of the population is sympathetic to Islam and has bought the lie it is a "religion of peace." Don't forget, it is the influence of the media that mainstreamed the radical homosexual agenda, made same-sex marriage legal, has allowed the slaughter of innocent babies and the selling of baby parts to be accepted by over half of our nation, while demonizing Christians and mocking God and the Bible.

-Law enforcement, local, state, and federal, did an amazing job dealing with the horrific scene they came upon in California Wednesday. It is sickening how this current administration has purposely demonized police across this nation, those who bravely put on the uniform each day and put their life on the line to serve and protect the citizens of their community.

-CAIR, the Muslim advocacy group that bullies and intimidates those who dare to tell the truth about the false religion of Islam, held a press conference Wednesday night before any real facts were even known. That could have only happened with the involvement of the Obama administration who works closely with this group that has ties to terror groups. It was a hollow attempt to distance themselves from what everyone already knew was the latest act of Islamic terror on our soil.

-Like in so many of these acts of Islamic terror, in the aftermath neighbors always talk about how nice these terrorists were. The co-workers of the Muslim terrorist gave he and his wife a baby shower after the birth of their 6 month old daughter. He was given great latitude by his job to practice his faith. In the end, he had no problem slaughtering his co-workers like lambs. Islam does not commit these acts of terror because of any other reason than this is what their false religion from hell teaches them.

-A neighbor of the terrorists said they saw strange activity in their garage many nights, late into the night. They said they saw numerous Middle Eastern men coming and going. They also said they saw many, many deliveries of large packages. They thought they should call the police and report what they were seeing, but decided not to for fear of being labeled a bigot, racist, xenophobe, so they said nothing! THIS IS THE RESULT OF THE MEDIA

## RUSHING TO LABEL ANYONE WHO TELLS THE TRUTH ABOUT ISLAM AS DEMONIZING THIS “WORLDWIDE RELIGION OF PEACE,” AND INTIMIDATING THEM INTO SILENCE!

What we are witnessing is simply the judgment of God falling on this nation for our sins and rebellion to our Creator. We are as much to blame, since we have abandoned the marketplace for the comfort, safety, and profitability of the Christian subculture we created over 40 years ago that virtually all of Christendom operates in. Like the OT priests and the priest at the time of Jesus, most pastors and Christian leaders have created their own fiefdom they self-perpetuate each year by preaching to the choir. They hide from the marketplace and the non-Christian media since they simply want to be left alone in the peace of profits of their “ministry.” So the lost masses in the marketplace have been left to the wolves of Satan to devour.

Our nation is DONE and will crumble under God’s judgment unless we rise up, turn back to the Almighty. Our time is up, and it is time followers of Christ rise up and lead this nation back to God and His Truth...our only hope...our only answer!!!

### **3. The likelihood of America being hit with an EMP bomb is very strong.**

- A. God has been sending strong warning to the church through both Christian and secular voices. Recently Ted Koppel came out with a new book called Lights Out. In a recent interview he was asked “**How likely is this event**” His answer was, “ I’ve talked to experts in the Department of Homeland Security and FEMA. And while there are those who believe it will not happen, the preponderance of those that I spoke to believe not only that it can but that it will. Former Secretary of Homeland Security, Janet Napolitano, told me she thinks the chances are 80% to 90%.”

**When asked if he had a generator and was he stocking food his response was, “I have a generator, but we’ve had one for years. I live in a part of Maryland where the power goes out a lot. I did order some freeze-dried food. And I ordered it for my grown kids and grandkids.**

- B. If non-Christians are seeing catastrophic events coming and are preparing, then we who know we are in the Last Days, must do more.**

**4. Scientists are confirming the warnings of God's prophets that mega earthquakes are imminent and these quakes will change the face of America.**

A. The economic chaos that **will** follow these events is almost unimaginable.

David Wilkerson goes into great detail telling how this coming event will cause our economy to spin totally out of control.

B. My book , **Part Two ,The Window of the Lord's Return**, covers much on this topic including a dream God gave me and three days later confirmed by Scripture beyond doubt that the 9.2 quake I saw in my dream is coming to the Northwest.

**5. Unusual weather patterns in America are setting the stage for great famines to come. Scientists are warning of great pestilence that will mutate from animal and bird viruses.**

A. The changing weather patterns will bring food shortages and will result in great loss of life.

B. Coming pestilence will bring economic chaos and great loss of life as well.

**6. We are seeing many signs of a coming global economic collapse.**

A. Many of the coming events listed in this study could be the domino that will ripple and economic collapse around the world.

B. I often go back to the prophecy of David Wilkerson, from his book, **Set the Trumpet to Thy Mouth**. "The great holocaust (destruction) follows an economic collapse in America. The enemy will make its move when we are weak and helpless."

C. The Article below was just posted on the internet Dec.07, 2015 it has what I believe as an accurate analysis of what is coming to America soon.

## **Peter Schiff Warns: "The Whole Economy Has Imploded... Collapse Is Coming"**

Back before 2008 Peter Schiff was harshly criticized and laughed at for his predictions about a coming economic collapse. Among other things Schiff warned that consumer spending had hit a wall, stocks were overpriced and lax credit lending practices would lead to a detonation of the banking system. Rather than heed the warnings, the biggest names in mainstream media tried to discredit him for not toeing the official narrative. Shortly thereafter, of course, Schiff was vindicated and much of the doom he had forecast came to pass.

Today, Schiff continues to argue that the economy is on a downhill trajectory and this time there'll be no stopping it. All of the emergency measures implemented by the government following the Crash of 2008 were merely temporary stop-gaps. The light at the end of the tunnel being touted by officials as recovery, Schiff has famously said, is actually an oncoming train. And if the forecast he laid out in [his latest interview](#) is as accurate as those he shared in 2007, then the train is about to derail.

*I read a statistic... The average American has less than a \$5000 net worth... it's pathetic... we're basically broke... but in fact it's much less... If you actually took the national debt and broke it down per capita, the average American has a negative net worth because the government has borrowed in his name more than the average American is able to save.*

*What's happening is pretty much what we would anticipate. I don't see from the data any real economic recovery, certainly not in the United States.*

*We're spending more money, but it's not because we're generating more wealth. We're generating more debt. **We're using that borrowed money to consume and so temporarily it feels that we're wealthier because we get to spend all that money... but we have to come to terms with paying the bill.***

***The bills are going to come due. Right now interest rates are being kept at zero which makes it possible to service the debt even though it's impossible to repay it... at least we can service it. But once interest rates go up then we can't even service it let alone repay it.***

Fundamentally, America is worse off now than it was pre-crash. With the national debt rising unabated and money being printed out of thin air without reprieve, it is only a matter of time.

Schiff notes that while government statistics claim Americans are saving again and consumers seem to be spending, the average Joe Sixpack actually has a negative net worth. But most people don't even realize what's happening:

***And then the party is going to come to an end.***

The problem, of course, is that no one with any real influence over public perception, like our elected officials or the media, will do anything about it. They'll continue the party until it comes to an abrupt and irreversible end, and anyone who goes against the official narrative will be branded a lunatic gloom and doomer or extremist.

But vilifying those who are blaring the warning sirens will do nothing to change the end result:

***We're going to have a crisis...*** *There are always going to be people who say 'well, you're a stopped clocked... you keep predicting doom and eventually it happens'... but you have to back and listen to why... Why are they saying it?*

*If you look back at things that I've said and the things that Ron Paul has said... This is why it's happening... it's not like we're just saying negative things to be negative and then when something negative happens we can claim credit for it happening.*

*If you look back at the events it bears out that we're right... unfortunately our opinions are in the minority... and you have governments that have a vested interest in ignoring these opinions because they don't want to change because they're at the root cause of the problem. But they don't want to acknowledge their role in creating the problem. **They don't want to acknowledge that the problem is more government and that we need less government because that's not how they stay in power. They promise something for nothing... they promise that government is the solution for your problems, not the cause of your problems.***

***They're never going to acknowledge people like Ron Paul for what they're saying... but they'll try to discredit you by saying 'well, you've been saying this for years and nothing bad has happened.'***

***But look around. A lot of bad stuff has happened. We just haven't had the final and complete collapse. But what good is it when that happens? Now it's too late to do anything about it.***

The reality is that the American economy is on its last leg. Black Friday sales were pitiful, some of the world's leading companies are warning of recession, and U.S. national debt will soon surpass \$20 Trillion.

Just as was the case before the Crash of 2008, all of the signs are there. And just like before, the stock market continues to hover near all-time highs.

**If you've been paying attention you know what happens next.**

**7. We currently have political leaders that would sell out America to a global One World Government.**

**Our current administration is already signing global agreement that are binding on America , even after his leaving office.**

**8. The Church is seeing a surge of persecution, in the military, in schools, and the courts.**

**9. Many Prophets have warned America of a coming invasion on our soil.**

A. Part of the judgment of God on Israel was invasion and captivity. America has been warned.

B. I have compiled a list of seven prophetic warnings of the coming Invasion of America.

1. George Washington saw an invasion and villages on fire across America

2. Dimitri Duduman, saw cities on fire and an invasion.

3 Jonathan Hansen , saw several major cities nuked in America

4 Kenneth Hagin had a descriptive dream of America's invasion.

**Below I am including part of the vision Kenneth Hagin had years ago.**

"I began to read what was written on the paper, and as the words instructed me, I looked and saw what I had just read about. First I read about thousands upon thousands of men in uniform. Then I looked and saw these men marching, wave after wave of soldiers marching as to war. I looked in the direction they were going, and as far as I could see there were thousands of men marching.

I turned to read the scroll again, and then looked and saw what I had just read about. I saw many women—old women with snowy white hair, middle-aged women, young women and teenagers. Some of the younger ones held babies in their arms. All of the women were bowed together in sorrow and were weeping profusely. Those who did not carry babies held

their hands on their stomachs as they bowed over and wept. Tears flowed from their eyes like water.

I looked at the scroll again, and again I looked to see what I had read about. I saw the skyline of a large city. Looking closer, I saw the skyscrapers were burned-out hulls. Portions of the city lay in ruins. It was not written that just one city would be destroyed, burned and in ruins, but that there would be many such cities.

The scroll was written in the first person, and seemed as if Jesus Himself were speaking. I read: "America is receiving her last call. Some nations already have received their last call and never will receive another."

Then, in larger print it said, "THE TIME OF THE END OF ALL THINGS IS AT HAND." This statement was repeated four or five times. Jesus also said this was the last great revival. He went on to say: "All the gifts of the Spirit will be in operation in the church in these last days, and the church will do greater things than even the early church did. It will have greater power, signs and wonders than were recorded in the Acts of the Apostles."

5 Rick Wiles has seen dreams of Russia invading America

Go to, [www.TruNews.com](http://www.TruNews.com) and listen to the many prophetic guests he has had on his program.

6 David Wilkerson saw a coming economic collapse and destruction and he went on to say, "When we were weak our enemies would invade us."

7 Mena Lee Grebins has recently been hearing from the Lord that Russia will make a move against America.

What all of these prophecies have in common is, not one said this event would happen after the Rapture of the church. Many have warned that this invasion would happen to bring the church to its knees and back to God.

**The Following dream was sent to me 12-5-15**

Last night I had a dream that I feel was a vision of what is about to happen in America. I was outside with a few people in an unfamiliar place probably about 10 miles from my home. The dream started with California being invaded. There were these weird bombs being set off in the sky. They formed like a liquid grey formation in the sky and when they hit the ground you could see fire. Once they hit the ground firey rocks were flying every where. This would happen in sections at a time. The only thing I could think of was to hide under ground but there was no place to go to. I knew I needed to get home because I had things there to help protect me. So I got into a car with a few others and as we got further into the city all over the sky was parachutes with people. I looked at the parachutes and the flag of the invader was white blue and red. I knew in the dream that those were the colors of the Russian flag . ( I had to Google that this morning to confirm and yes it's Russian) but I noticed when their troops were dropping to the ground there were a lot of Chinese also dropping down with the colors of the Russians on their chutes. As this was happening people had no idea what was happening. I could clearly see that we were being invaded but others were completely clueless and unprepared. I knew that if I didn't get to my house and leave right away to escape that I was going to die. As we were driving away the guys in the parachutes could fly and stay in the air. They could literally fly where they wanted and land where they wanted. I woke up after this and I just thought I would share this with u and others I know. God bless!

#### **10. Israel is on the verge of War.**

- A. S-300 and the new S-400 missiles systems will soon be delivered to Syria and Iran. When Russia attempted to deliver S-300 missiles to Iran a few years ago, Israel air strikes took them out before they could be used against them. I believe Israel will be forced to take similar steps and this could be the trigger of the Psalms 83 war.
- B. Since starting this study, I just learned that Israel has started bombing truck convoys moving missiles in Syria. Will this trigger the Psalms 83 War? I truly believe this war is coming soon. As I shared in my study on the Psalms 83 War, I believe when the Psalms 83 War breaks out, I believe it will cause a global panic. This war will lead to the total destruction of Damascus. This destruction will probably come from the use of nuclear weapons.

**11. The Bible says in the last days the love of many will grow cold.**

**These truly are the days when the love of many has grown cold to the things of God.**

**12. At such a time as you think not, the Son of Man cometh.**

**The attitude of the church in the last months since the time of the last Blood Moon shows we are in that time when the church is thinking God has delayed his coming.**

In closing, I received a letter encouraging me to keep up with getting the words of warning out to the body of Christ. This letter reminded me about Matthew 24:33 (and Mark 13:29), ..." Jesus went on to say **"so likewise ye, when you shall see all these things, know that it is near , even at the door."** Jesus was saying when we see all the things happening, which he had just said, in the earlier verses of Matthew 24. Jesus on one hand said no one knows the day or the hour, but then said, ***"When you see the signs of warning, know that his coming is even at the door."***

**John Shorey Author of , [The Window of the Lord's Return](#)**

**Please heed these warnings and prepare for what is soon to come.**

**You have been warned.**
